•	of the NE% NW% Section 25; N% NE%, SW% NE%, E% NW%, SW% NW% Section 26; T.18N.,	
-	R.24E., MDB&M, as shown on the supporting map	
	Jse will begin about January 1 and end about December 31 of each year. Month and Day Month and Day	
8. 1	Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and	
s	pecifications of your diversion or storage works.) drilled well, pump, motor and distribution State manner in which water is to be diverted, i.e. diversion structure, ditches and	
Ä	SYSTEM umes, drilled well with pump and motor, etc.	

9.	Estimated cost of works \$2,000,00
10.	Estimated time required to construct works. 2 years (well complete but additional work on
	system needed)
11.	Estimated time required to complete the application of water to beneficial use
Cor	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use: The water under this application is for use at the Silver Springs Airport. Applicant is a non profit corporation which leases the property from the Bureau of Land Management and the Nevada Department of Transportation (copies of leases attached). Water will be used for aviation related activities such as a flight school, shop, hangers, offices, watchman quarters, fire protection, landscaping and related commercial activities. It is anticipated that the initial amount of water needed will be 6 acrefeet annually. It is intended that this application, together with a second application in the name of Lahontan Airport Development Association being filed concurrently, be supplemental for a total combined duty not to exceed 6 acrefeet annually. The well under this application is the subject of withdrawn Permit 11050. By s/Bruce R. Scott Bruce R. Scott Bruce R. Scott, Resource Concepts, Inc. 340 North Minnesota Street Carson City, Nevada 89703
	APPROVAL OF STATE ENGINEER
foll	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the owing limitations and conditions:
right place reas (2) inst main meas be is if purs here publicant.	Int of water herein granted is only a temporary allowance and that the final water at obtained under this permit will be dependent upon the amount of water actually sed to beneficial use. It is also understood that this right must allow for a conable lowering of the static water level. This well shall be equipped with a two inch opening for measuring depth to water. If the well is flowing, a valve must be alled and maintained to prevent waste. A totalizing meter must be installed and tained in the discharge pipeline near the point of diversion and accurate urements must be kept of water placed to beneficial use. The totalizing meter must installed before any use of water begins, or before the Proof of Completion of Work filed. This source is located within an area designated by the State Engineer, uant to NRS 534.030. The State retains the right to regulate the use of the water in granted at any and all times. This permit does not extend the permittee the right of ingress and egress on ic, private or corporate lands. TINUED ON PAGE 2)
	amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to
exc	feet annually.
	k must be prosecuted with reasonable diligence and be completed on or before April 13, 1997
Рго	of of completion of work shall be filed before
	dication of water to beneficial use shall be filed on or before
Pro	of of the application of water to beneficial use shall be filed on or before May 13, 2000
	o in support of proof of beneficial use shall be filed on or before
	pletion of work filed. APR 2 8 1998 IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E. State Engineer of Nevada, have hereunto set my hand and the seal of my
	office, this 13th day of April
	aral map filed

(PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 57077 and 57078 shall not exceed 6.0 acre-feet annually.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit is issued as a preferred use for the Silver Springs Airport only.
